

## UTAH SWAC MINUTES

JANUARY 13, 2010 10:30am DEQ Building #2 Room 201

- Welcome and Introductions
- Approval of Minutes for Nov 4, 2009
  - Motion - Curtis Christensen; Second Dan Woodbury
- Coalition Updates
  - Salt Lake - Dan Drumiler: Water fair & TV ads are in planning process; Public opinion poll (just for SL County) – costs \$12K and surveys about 5000 people. Now finalizing questions and planning to begin survey at end of this month; RSI training in Feb 3<sup>rd</sup> week in Feb (up to 20 people)
  - Davis: New chairman is Ashley Thoman (voting USWAC member) and Ken Klinker is alternate USWAC voting member
  - Weber: Wayne Crowther is new Chairman. Training tomorrow on permeable concrete
  - Cache: Contractor training Mar 15-16<sup>th</sup>; Spring water Fair trying to find date at end of April or 1<sup>st</sup> part of May
    - Comments about Water Fairs: Curtis Christensen and Bill Young: Good Review of curriculum
    - Paul Taylor commented about Davis County's Water Fair – ½ of the kids every year
    - Bill Young: there are some issues like some teachers not participating
  - Utah: Met in Dec (special session) to make comments for MS4 permit; Training for contractors with Accena group Feb 24<sup>th</sup> 8-12 at which RSI training will be promoted
  - (Washington: not able to connect via phone)
- Sub-Committee Updates
  - RSI Program – Paul Taylor
    - A new RSI sub-committee chairman is needed. The responsibilities would be to get feedback from RSI training and coordinate with LTAP staff, and work to keep the program updated. LTAP is slow to get results out.
    - Trace Robinson mentioned possibility of paying someone to do it, and getting away from LTAP. The sub-committee should decide, then bring recommendation to USWAC.
    - George Burbidge said to get somewhere that is not in the middle of nowhere.
    - Motion to appoint Trace Robinson as new chair of sub-committee – Dan Woodbury; Second by Bill Young
    - Paul Taylor gave RSI information that 6 trainings have occurred so far, about 200 have been trained. Application form has changed to help evaluate qualifications.
    - Discussion about getting the applications on website, getting contractors trained with RSI, and targeting municipal crews for RSI training, and getting the training to Washington County.
    - Harry Campbell said that upcoming enforcement money is coming soon that possibly could be used for helping to get the training to Washington County. Discussion about money already available, but good documentation about how spent is needed.
    - Motion made by Dan Woodbury to send 2 RSI instructors to Washington county to do a class with Federal Guidelines for expenses made; Second by Steve Johnson
  - Common Plan of Development – Mike Herkimer
    - An alternate application for smaller sites is possible, that would put the responsibility on the sub-committee to develop a good SWPPP template. He further explained that when homes are completed and sold, if the home is complete then the new owner will not need a NOI to complete the landscaping. The EPA is no longer interested in regulating the property for storm water; it would be only under the local jurisdiction's regulations unless there is an environmental problem.
  - SWPPP Template – Dan Woodbury

- Sub-committee met earlier and had a lot of discussion. They are going to look at Utah's permit requirements specifically because we don't have to follow EPA's template. Revised template will be emailed to those on roster and may be ready for a vote next month.
  - Phase II Permit Update – Mike Herkimer
    - Many comments received, between 20 and 40. They are looking at the comments and plan to make one response letter to be sent out to everyone.
    - Now, Rhonda is Auditing Washington and Santa Clara
    - If a public hearing will be held, it will be published. If they decide to change the permit, they will re-public notice it. Any action will be well publicized.
- Coordinating Construction Permit Presentation – Jerry Chaney
  - UDOT SWPPPS template follows EPAs model
  - Environmental Control Supervisor (ECS) Responsibilities explained. The ECS from UDOT works closely with ECS from contractor
  - Common UDOT project BMPs
  - Request for Project Coordination info: Contact person and ordinances from each jurisdiction
  - Links to Standard Drawings
  - Some discussion followed about Cities regulating State within their city. There are some conflicting regulations that the Attorney General's office is working on.
- Next meeting Feb 10, 2010 at 10:30 am in the Cannon Health Building Room 114
